Specifications

Features

Material: TPU fabric (inflatable compartment)
Fixers: Adjustable and resistant plastic buckles
Design: Dual inflatable chamber with independent triggers and location lamp

Applications

Use on vessels regulated by international SOLAS standards
Suitable for professional use on commercial ships, offshore platforms and passenger vessels

Benefits

Readiness: Dual triggers ensure automatic inflation even if one system fails
Durability: TPU fabric resistant to abrasion and marine chemicals
Safety: Complies with international regulations, with superior buoyancy and location lamp

Technical Specifications

Model: SOLAS Dual Inflatable Lifejacket
Material: TPU
Fixers: Two front adjustable plastic buckles
Buoyancy: ≥150N × 2
CO_2 Cartridges: 2 × 33 g
