Part Number: ---

Approvals: ---

Specifications

Features

Double activation: Automatic upon water contact or manual

Compatibility: 150N and 270N inflatable life jackets

Resistance: Saltwater and extreme environments

Reliability: Fast and safe inflation in critical situations

Applications

SOLAS/MED certified inflatable life jackets

Safety equipment for commercial and recreational vessels

Offshore operations and maritime rescues

Benefits

Immediate activation in water, ensuring safety in maritime emergencies

Optional manual mode, allowing adjustment according to user needs

Robust construction, designed to withstand severe maritime conditions
