Specifications

Features

Material: TPU fabric (inflatable compartment)

Fixers: Adjustable and resistant plastic buckles

Design: Dual inflatable chamber with independent triggers and location lamp

Applications

Use on vessels regulated by international SOLAS standards

Suitable for professional use on commercial ships, offshore platforms and passenger vessels

Benefits

Readiness: Dual triggers ensure automatic inflation even if one system fails

Durability: TPU fabric resistant to abrasion and marine chemicals

Safety: Complies with international regulations, with superior buoyancy and location lamp

Technical Specifications

Model: SOLAS Dual Inflatable Lifejacket

Material: TPU

Fixers: Two front adjustable plastic buckles

Buoyancy: $\geq 150\text{N} \times 2$

CO₂ Cartridges: $2 \times 33\text{ g}$
