

4 "Grinding Disc for Pneumatic Wrench SP-9000

The 4 "reboło disk is a spare part developed for use with the SP-9000 pneumatic grinder.

Designed for rust rusting and removal operations on metal surfaces, it offers effective and safe performance, even in severe environments such as shipyards, foundations and heavy industries.

COD EUROSUL: 094505

IMPA: 590301

Part Number: ---

Approvals: ---

Specifications

Features:

Material: high resistance industrial abrasive

Fixers: Central hole compatible with mandril m14

Design: 4 inch hard disk with high cutting power

Dimensions: 4 "(101.6 mm) in diameter

Applications:

Suitable for use in conjunction with SP-9000, it is ideal for removing rust, burning and cleaning of metal surfaces in naval constructions, steel structures and industrial maintenance processes.

Benefits:

Readiness: allows rapid replacement in the field, maintaining the pace of production

Durability: abrasive wear resistant disc

Security: Compatible with up to 9,000 rpm, ensuring safe and stable operation

Essential component to ensure maximum performance of the SP-9000 pneumatic grinder in critical maintenance and finishing operations.

Technical Specifications:

Material: reinforced industrial abrasive

Fixers: Compatible with mandrel m14

Dimensions: 4 "diameter (101.6 mm)
