

6 -inch nautical light

The 6 -inch nautical luminous sticks are indispensable tools for signaling and safety in maritime environments and emergency situations. Made with water and wind resistant materials, these sticks are ideal for adverse conditions. Available in vibrant colors (yellow, orange, green and red), ensure high visibility lasting up to 12 hours of continuous light. Its simple activation, through flexion and agitation, offers a reliable, secure and practical solution, without the need for batteries or flames.
