

75mm M14 x 2 Steel Brush for Pneumatic Grinder SP-9000

The 75mm steel brush with M14x2 thread is a specifically designed spare part for use with the sp-9000 pneumatic grinder. Made of high strength steel, this brush is ideal for rust removal operations in metal structures, vessels and industrial equipment, ensuring efficiency and safety in the pneumatic brushing process.

COD EUROSUL: 094503

IMPA: 592073

Part Number: ---

Approvals: ---

Specifications

Features:

Material: High resistance carbon steel

Fixers: Thread M14x2 Compatible with standard tools

Design: Circular brush with intertwined steel wires

Dimensions: 75 mm diameter

Applications:

Used as a replacement accessory for the SP-9000, this brush is recommended for rust removal in naval buildings, steel structures, industrial molds and foundries.

Benefits:

Readiness: facilitates rapid and continuous replacement in the field

Durability: Made of abrasion resistant steel

Safety: Compatible with rotation of up to 9,000 rpm, ensuring safe performance

Essential replacement part to maintain the performance and safety of operations with industrial and naval pneumatic brushing.

Technical Specifications:

Material: Carbon steel

Fixers: Thread M14x2

Dimensions: 75 mm in diameter
