

## Universal Strap for Inflatable Life Raft Lashing – 48 mm x 4 m – Stainless Steel 316

The Universal Strap for Inflatable Life Raft Lashing is engineered to ensure the secure fastening of life rafts aboard vessels. Made of high-tenacity 100% polyester webbing and AISI 316 stainless steel accessories, this strap resists tensile forces, corrosion, and harsh marine conditions. The turnbuckle tensioner system guarantees precise adjustment and firm securing during operations.

**COD EUROSUL:** 094661

**IMPA:** 330161

**Part Number:** ---

**Approvals:** ---

## Specifications

### Features

**Material:** 100% polyester strap with 316 stainless steel fittings.

**Fasteners:** *turnbuckle* and stainless hooks.

**Dimensions:** 48 mm x 4 m x 2 mm.

### Benefits

**Safety:** quick and reliable release in emergencies.

**Durability:** 3,977 kg (39.78 kN) breaking strength.

**Resistance:** SGS certified – GB/T 20630.1-2006 (ANSI 316).

### Applications

Liferaft securing on ships, tugs, and offshore units.

### Technical Specifications

**Material:** polyester and 316 stainless steel.

**Fasteners:** *turnbuckle* + stainless hooks.

**Dimensions:** 48 mm x 4 m x 2 mm.

**Breaking strength: 3,977 kg (39.78 kN).**
