

Balaclava Capuz – MTE Certified

Balaclava hood is a personal protective equipment (PPE) developed to protect against heat and flames in high risk environments. Produced in meta-aramid mesh or lap treatment, the hood is available in several configurations, including double, unique or facial eye openings, with or without shoulders. Light, ergonomic and highly heat resistant, the product meets Brazilian Normative Requirements with Certificate of Approval (CA) issued by the Ministry of Labor and Employment (MTE).

Specifications

Material: Meta-Aramid or LAP-treated mesh

Design: Double eye opening, single eye opening, or full face opening

Shoulder Flap: With or without flap for increased neck protection

Certification: MTE CA (Approval Certificate for PPE)

Applications:

Petrochemical industry: Environments with thermal risk and fire exposure

Firefighting: Ideal for firefighters and rescuers

Industrial maintenance: Protection for high thermal risk services

Benefits:

Flame-resistant protection: Proven resistance to extreme heat and direct flames

Comfort and safety: Flexible, lightweight fabric for extended wear

Versatility: Multiple configuration options for different work environments

An essential product for safety in critical environments, with recognized national certification.
