

## Belt Clip for Entel DT952, DT953, DT522, DT582, DT525, DT585 Radios CBH950

The Entel CBH950 belt clip is a spare accessory designed to securely attach Entel portable radios to the user's belt. Featuring a reinforced spring-loaded mechanism, it provides a firm hold, ease of use, and quick access to the radio during professional operations. Compatible with multiple DT series radios, the CBH950 belt clip is suitable for industrial, marine, and operational environments where mobility and equipment safety are essential.
