

## Blow Out Air Substitute Dust Remover Solo A7 – 10oz/283g Can

The Blow Out Air Dust Remover Solo Solo A7 is a compressed air spray designed for efficient and secure cleaning of electronic equipment, cameras, keyboards and sensitive surfaces. Its formula contains 1,1-difluoroethane gas of high purity, allowing rapid removal of dust and particles without leaving residue or damaging the components.

**COD EUROSUL:** 003686

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Benefits:

**Effective dust removal:** Eliminates dirt without leaving residues

**Safe for electronics:** Can be used on delicate surfaces without risk of damage

**Easy application:** Pressurized spray with precision nozzle for hard-to-reach areas

**High purity:** 1,1-Difluoroethane gas (CAS: 75-37-6) 100% pure

### Technical Specifications:

**Chemical Composition:** 1,1-Difluoroethane (CAS: 75-37-6)

**Weight:** 283g (10oz)

**Packaging:** Pressurized can with applicator nozzle

**UN Number:** UN1030

**Hazard Classification:** 2.1 (flammable gas)

**Storage:** Keep in a ventilated area, away from heat and flames
