

Box with 12 Units of Solo A10 Smoke Detector Tester Aerosol Spray – 142ml

Caixa with 12 A10 solo units is ideal for companies and professionals who perform regular smoke detects. Each can contains 142ml of non-flammable aerosol, ensuring a safe and effective simulation of fire conditions for preventive safety systems. This spray replaces the A3 and A4 solo models, being compatible with 330, Aero 300 and Samoke Saber Solo Dispensers. With an environmentally responsible, HFC 134A formulation, reduces environmental impact without compromising test efficiency.

Specifications

Benefits

Safe testing: Synthetic smoke particles that do not damage detectors or the environment

Non-flammable: Enhanced safety for various applications

Ideal substitute: Compatible with Solo A3 and A4 models, free from harmful gases

Guaranteed compatibility: Works with Solo 330 and other market options

Sustainability: Free of HFC 134a, meeting international environmental standards

Applications

Security system maintenance: Regular testing of commercial and residential smoke detectors

Daily detector checks: Ensures proper functioning of systems

Supply for companies and maintenance teams: Ideal stock for continuous professional use

Composition

Alcohol blend: 80-99%

Free of HFC 134a: 1,1,1,2 – tetrafluoroethane

Physical and Chemical Properties

Vapor density: 5.26 kg/m³

Water solubility (25°C): 0.15%

Melting point: -101°C

Boiling point: -26.5°C

Flash point: Non-flammable

Vapor pressure (20°C): 70 psi
