

## Float Free Housing for EPIRB E5/G5 with Valve

Replacement housing compatible with McMurdo EPIRB models E5 and G5, automatic category 1 (Auto Cat1). Designed to ensure automatic equipment release during maritime emergencies. The system includes a Hydrostatic Release Unit (HRU) for float-free EPIRB activation upon reaching a predetermined depth.

**COD EUROSUL:** 000516

**IMPA:** ---

**Part Number:** 1102

**Approvals:** ---

## Specifications

### Included Items

1 (one) McMurdo EPIRB Capsule with HRU

### Features

**Material:** Robust plastic, resistant to marine corrosion

**Design:** Designed for automatic release in emergency situations

### Applications

Used in McMurdo E5 and G5 EPIRBs for automatic release in maritime emergencies

### Benefits

**Readiness:** Guaranteed float-free release with hydrostatic activation

**Durability:** Resistant to harsh marine environmental conditions

**Safety:** Meets international maritime safety standards
