

## Float-Free Housing for EPIRB E8/G8/G8 AIS Without Valve

The McMurdo Float-Free Casing is designed for Smartfind EPIRB E8, G8, and G8 AIS models. This specific model does not include the HRU valve, ensuring simplicity and efficiency for EPIRB storage. Compatible with part numbers PN23-298A and PN23-001-502A, it is ideal for vessels requiring a float-free release system.

## Specifications

### Features

**Material:** Robust and durable structure, resistant to harsh marine conditions

**Compatibility:** Compatible with EPIRB Smartfind E8, G8, and G8 AIS

**Design:** Float-Free, automatically releasing the EPIRB in emergencies

**Mounting:** Easy installation and removal without the need for additional tools

### Applications

Used on vessels to store and automatically release the EPIRB in maritime emergency situations

### Benefits

**Readiness:** Automatic EPIRB release upon submersion

**Durability:** Resistant to impacts and prolonged exposure to the marine environment

**Safety:** Ensures the EPIRB is activated and released correctly during emergencies

### Technical Specifications

**Material:** High durability, corrosion-resistant

**Compatibility:** Smartfind E8/G8/G8 AIS
