

CIRCULAR BUY SOOLS 2.5kg 70cm Datrex

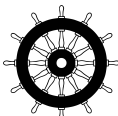

The 2.5 kg circular float is a reliable and robust solution to ensure the safety of sailors and passengers in emergency situations. Developed according to the 1974 Solas and Certified US Changes of the US Coastal Guard (USCG), the float is made with an outer low density polyethylene layer and inner polyurethane foam core, offering superior durability in extreme maritime environments.

COD EUROSUL: 000602

IMPA: ---

Part Number: ---

Approvals:

SOLAS

Specifications

Features

Material: External layer in low density polyethylene – Internal core in polyurethane foam

Dimensions: Diameter 76 cm (30") – Weight 2.5 kg (5.5 lb)
