

CLASS II Active Vest Active Jaleco

The Life Jacket is designed to ensure maximum safety in coastal and offshore navigation.

Approved by the Brazilian Navy (NORMAM 05/DPC), it meets the highest safety standards, suitable for commercial vessels, offshore platforms, and rescue operations. Available in G (55–110 kg) and GG (over 110 kg) sizes, it provides 156N buoyancy and an efficient self-righting system that keeps the user's head above water within 5 seconds. Equipped with a crotch strap, SOLAS whistle, SOLAS reflective tapes, and an elevated collar, it ensures safety, comfort, and visibility in critical situations.

Specifications

Characteristics

Material: High-strength fabric with buoyant foam

Righting system: Keeps the user's head above water within 5 seconds

Reflective tapes: Provide greater visibility in emergency situations

SOLAS whistle: Enables effective sound signaling

Strong and adjustable fasteners: Keep the vest firmly secured even under extreme conditions

Crotch strap: Prevents the vest from riding up, ensuring additional safety

Applications

Commercial and recreational vessels
Oil platforms and offshore operations
Rescue and safety activities in open sea

Benefits

Readiness: Quick adjustment for immediate use

Durability: Materials resistant to impacts and harsh weather

Safety: Certified according to NORMAM 05/DPC for critical operations
