

Cutting tool and breaker

The Cut-Cut and Greening tool is an essential emergency device designed to cut seat belts and break glass quickly and efficiently. With high strength carbon steel blades, it allows fast and accurate cutting, while its breaking end enables the quick evacuation of vehicles and vessels in critical situations. The cable has electrostatic protection and ergonomic design, ensuring good grip and safety during use.

Specifications

Features

- Blade:** Sharp and resistant carbon steel
- Handle:** Electrostatic protection for greater safety
- Grip:** Ergonomic, ensuring firmness and control
- Dual function:** Seatbelt cutter and glass breaker

Applications

- Rescue operations on vessels, vehicles and aircraft:** reliable tool for emergencies
- Essential equipment:** for lifeboats and emergency kits
- Industrial and rescue environments:** suitable for critical situations

Benefits

- High resistance and durability:** robust carbon steel blade
- Compact and lightweight design:** easy to carry and store
- Enhanced safety:** enables fast and effective action in emergencies
