

Daniamant Rescue Master 2B Battery for RM 2100-DK Extension Lamp

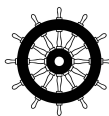

The Daniamant Rescue Master Series 2B battery is designed to provide reliable and long-lasting performance for maritime and rescue operations. With a minimum runtime of 12 hours, this lithium battery is MED and IMO SOLAS certified, ensuring compliance with the highest maritime safety standards.

COD EUROSUL: 001113

IMPA: ---

Part Number: 23-004A

Approvals:

**SOLAS**Maritime &
Coastguard
Agency

Specifications

Features

Material: lithium with sulfur dioxide and acetonitrile.

Duration: minimum 12 hours continuous use.

Compatibility: RM 2100-DK extension lamp.

Design: compact, lightweight, and marine-resistant.

Benefits

Readiness: provides reliable power in critical operations.

Durability: built to withstand harsh marine environments.

Safety: certified under MED and IMO SOLAS standards.

Technical Specifications

Composition: lithium, sulfur dioxide, and acetonitrile.

Runtime: minimum 12 hours.

Compatibility: RM 2100-DK.

Certification: MED / IMO SOLAS.
