

Entel CMP950 EX ATEX Microphone

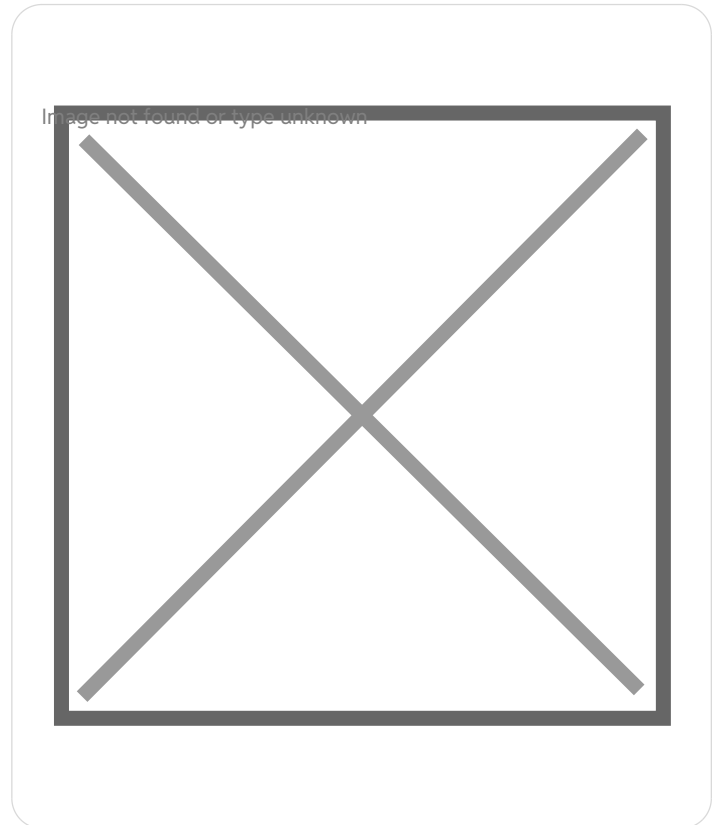

The Entel CMP950 EX ATEX Microphone is designed for efficient and safe communication in noisy and hazardous environments. Equipped with a swivel clip, it easily attaches to the belt, providing convenience and quick access without the need to remove the radio. Ideal for high-risk industries, the microphone is ATEX certified, ensuring safety in explosive atmospheres.

COD EUROSUL: 004102

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features:

ATEX Certification: Ensures compliance with safety standards for explosive environments.

Swivel clip: Easy attachment to the belt, ideal for continuous use.

Efficient communication: No need to remove the radio, ensuring operational continuity.

High-risk environments: Ideal for industrial, maritime, and other environments.

Benefits:

Enhanced safety: ATEX certification for safe use in hazardous environments.

Ease of use: Quick and easy belt attachment, ensuring efficiency in operations.

Durability: Robust construction, ideal for withstanding challenging environments.

Technical Specifications:

Certification: ATEX

Attachment: Swivel clip for belt

Environments: Noisy and high-risk

Usage: Communication without radio removal

Durability: Robust and resistant construction
