

## EPDM fire hose without connection

EPDM Fire Hose without connection is ideal for fire fighting systems where connect customization is required according to the standard of use. Made of reinforced EPDM rubber, it offers exceptional resistance to abrasion, high pressures and weather. Its flexible structure facilitates handling, storage and installation, being suitable for naval, offshore and industrial use.

**COD EUROSUL:** 094597

**IMPA:** ---

**Part Number:** ---

## Specifications

**Material:** Reinforced EPDM **FIXERS:** Without connection **Design:** Flexible, light, abrasion resistant and weather dimensions: various length and diameter options available

**Applications:** Ships and vessels: Custom Fire Fighting Systems Offshore platforms: Use in extreme environments with specific couplings industrial installations: Systems with varied connection standard **Benefits:** Readiness: Ready for customization as per standard required durability: Reinforced EPDM for long service life in aggressive environments **Safety:** high performance warranty in critical operations **Versatile product** that allows integration with different types of connection, meeting maritime and industrial safety standards.

**Technical Specifications:** Material: Reinforced EPDM Connection: No connection (free for adaptation)

**Dimensions:** On request
