Specifications

Benefits

IP67 rating: Full resistance to dust and water

Durable construction: Made of polyamide for long-lasting use

70V/100V transformer: Multiple power options for various applications

For challenging environments: Ideal for severe marine and industrial conditions

Applications

Offshore oil and gas platforms

Industrial facilities and outdoor environments

Outdoor communication and alarm systems

With its robust construction and IP67 protection, the HP-20(T) horn is a reliable choice for communication in harsh weather conditions.

Technical Specifications

Material/Color: Polyamide / RAL 7035

Weight with transformer: 2.1 kg

IP rating: IP67

Maximum/minimum operating temperature: 110°C / -50°C

Rated/maximum power: 20W

SPL (sound pressure) 1W/1m: 110 dB

SPL rated power: 122 dB

Effective frequency range: 310 – 8000 Hz

Dispersion (-6dB) 1kHz / 4kHz: 115° / 30°

Options: Color, impedance, and labels
