

Naval Searchlight TG27-B 220V 1000W IP66

The TG27-B Naval Searchlight is designed for maritime operations requiring powerful illumination, durability, and reliability. Equipped with a 1000W halogen lamp and GX9.5 socket, it provides a visible arc of 350° and a robust IP66-rated construction, ensuring performance in harsh and demanding marine environments.

COD EUROSUL: 096560

IMPA: ---

Part Number: TG27-B

Approvals:

Specifications

Applications: Merchant and military vessels, search and rescue operations, offshore vessels, marine platforms, deck, pier, and maneuvering area illumination.

Benefits:

High intensity: Powerful light output for critical missions

Durability: Corrosion and weather-resistant construction

Wide coverage: 350° rotation for optimal illumination

Compliance: Certified for demanding naval applications

Technical Specifications:

Material: Anti-corrosion alloy with protective coating

Lamp: 1000W halogen, GX9.5 socket

Power Supply: 220V / 60Hz

Rotation: 350° visible

Protection: IP66 – dustproof and water jet resistant

Operating Temperature: -25°C to +55°C
