

2 in Stainless Steel Double J Hook

The HK5030SSDJ Double J Hook is manufactured from high-quality AISI 316 stainless steel, delivering exceptional strength and corrosion resistance for demanding applications. It is primarily intended for securing Eurosul helideck safety nets, but is also suitable for heavy-duty lashing, lifting and containment systems in marine, offshore and industrial environments.

COD EUROSUL: 096476

IMPA: ---

Part Number: HK5030SSDJ

Approvals: ---

Specifications

Features:

Model: HK5030SSDJ

Material: AISI 316 Stainless Steel

Type: 2" Double J Hook

Wire Diameter: Ø12 mm

Hook Opening: Ø20 mm

Width: 50 mm

Height: 85 mm

Weight: ≈ 263 g

Minimum Breaking Load (MBL): 3,000 kg / 6,600 lbs

Applications:

Eurosul safety net installation (especially helideck nets)

Industrial lashing and containment systems

Offshore platforms, marine vessels, and port facilities

Environments with heavy corrosion or weather exposure

Benefits:

High Strength: Withstands loads up to 3,000 kg

Corrosion Resistant: AISI 316 for harsh marine and offshore use

Versatile: Fits a variety of netting and strap systems

Long Service Life: Rugged construction ensures durability

Technical Specifications:

Model: HK5030SSDJ

Material: AISI 316 Stainless Steel

Dimensions: Ø12 mm (wire) | Ø20 mm (opening) | 50 mm (width) | 85 mm (height)

Weight: ≈ 263 g

Breaking Load: 3,000 kg / 6,600 lbs
