

Descos 950K-01 lubricant stick – Box with 12 units (10 lbs)

The DESCOS 950K-01 Lubricant Stick is a premium solid lubricant designed for direct application on steel wire ropes, chains, and metallic surfaces under heavy friction. Its formulation ensures excellent adhesion, saltwater resistance, weather durability, and high-pressure protection, making it ideal for marine, offshore, and industrial operations. The stick format allows easy and clean application, ensuring uniform coverage even in hard-to-reach areas. Supplied in boxes containing 12 sticks (total 10 lbs).

COD EUROSUL: 004141

IMPA: ---

Part Number: 081812K / 950K-01

Approvals: ---

Specifications

Applications

Lubrication of steel wire ropes in winches, hoists, and cranes
Protection of chains and exposed gears
Offshore, port, and industrial operations
Equipment exposed to saline and harsh environments

Benefits

Durability: Long-term protection against wear and corrosion
Practicality: Stick format for direct application without extra tools
Safety: Reduces friction, prevents failures, and extends equipment life

Technical Specifications

Type: Solid grease stick
Packaging: Box with 12 sticks (10 lbs)
Resistance: High against seawater washout and corrosion

Adhesion: Superior on metallic surfaces

Properties: Long-lasting anti-corrosion protection

Application: Clean, practical, and efficient
