Specifications

Features

Material: Black rubber, resistant to shocks and weather conditions

Fixers: 3-meter spiral cable with pre-installed connection (2 x 0.75 mm²)

Design: Ergonomic, portable, with watertight integrated switch and Morse function

Dimensions: 164 x 148 x 118 mm (H x W x D)

Weight: 0.8 kg (net)

Protection: IP68 – waterproof and dustproof

Certifications: SOLAS, CE, MED (DNV-GL, Module B)

Applications

Ideal for use in lifeboats, rescue vessels and nighttime operations

Used in naval, offshore and commercial environments

Benefits

Readiness: Portable equipment ready for immediate use with simplified electrical installation

Durability:

Built with non-corrosive materials, ideal for prolonged use in marine environments

Safety: High sealing level and Morse signaling function ensure safe operation in emergencies

Technical Specifications

Material: Black impact-resistant rubber

Fixers: 3 m spiral cable – 2 x 0.75 mm²

Dimensions: 164 x 148 x 118 mm

Weight: 0.8 kg

Lamp: Halogen 12V – 50W

Protection: IP68
