## Specifications

### Features

**Material:** Brass with anti-corrosion finish

**Mounting:** Hinge with built-in shutter

**Design:** Traditional nautical style with clear display and robust structure

**Dimensions:** Not specified

### Applications

Shipboard radio stations

Bridge or technical areas

Visual control of time zones and radio silence periods

### Benefits

readiness: clear indication of radio silence zones for operations

durability: brass construction resistant to marine corrosion

safety: prevents interference and ensures compliance with radio silence regulations

ideal for vessels requiring compliance with radio silence standards and accurate time zone control

### Technical Specifications

**Material:** Brass with anti-corrosion protection

**Mounting:** Hinge with shutter

**Dimensions:** Not specified
