

Inflatable vest MULLION 275n regular hi-rise 2ms1 with lamp

The Inflatable Multion Sole 275n regular 2ms1 vest is designed to offer maximum security in extreme offshore operations. With a stylized horseshoe design, this vest has two independent air chambers, providing additional redundancy and safety. Made with durable waterproof fabric, it has double shoulder straps, reducing the weight in the neck for greater comfort. The inflation system uses two 60g CO₂ cylinders, ensuring pressure of 320N, higher than required by international standards.

Specifications

Features

Buoyancy: 275N (real pressure 320N)

Inflation System: Automatic and manual

Floating Chambers: Double, for greater safety

Material: PA-450D waterproof and tear-resistant fabric

Closure: Reinforced zipper with stainless steel buckles

Adjustability: Adjustable belt with removable crotch strap

Fixing: Equipped with marine-grade stainless steel D-ring

Visibility: Reflective silver piping on the front

Safety Devices

SOLAS S.O.S. lamp with 5-year validity

SOLAS whistle

Rescue strap for connection with other lifejackets

Certifications

SOLAS 2010 (Safety of Life at Sea)

EN ISO 12402-2: 2006 +A1: 2010

CE Ref: 2MS1A4N06

Applications

Offshore operations, essential for safety at sea

Commercial ships, meeting international safety requirements

Maritime rescues, providing high visibility and reliable emergency performance

Benefits

Fast and efficient inflation with both automatic and manual activation

Ergonomic design, ensuring comfort and reducing neck pressure

High durability, ideal for use in extreme maritime conditions
