

JEX-2 Needle Scaler Head with 2 mm and 3 mm Needles

JEX-24 disinkster support with 2mm and 3mm needles is a key accessory for inlaw and rust removal operations on metal surfaces. Built on high strength materials, it ensures excellent durability and performance in naval and industrial applications. Compatible with the Jex-24 pneumatic discrediting, this support includes 2mm or 3mm needles, providing flexibility for different surface cleaning and preparation needs.

COD EUROSUL: 003852

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Benefits:

- Robust structure to resist severe conditions
- Available with 2mm or 3mm needles for different applications
- Total compatibility with the Jex-24 Desinchruster
- Efficiency in the removal of rust, ink and inlaid
- Ideal for offshore and industrial environments

Technical Specifications:

- Material: High Resistance Steel
- Compatibility: Pneumatic Disintegrator Jex-24
- Needles: 2mm (code 003852) / 3mm (code 004034)
- Weight: Approximately 500g (variable as manufacturer)
- Dimensions: Standard for Jex-24
