

## JEX-24 Needle Scaler Head (Needle Holder)

JEX-24 Needle Scaler Dismissal Support is an essential accessory for the efficient operation of the removal equipment and rust on metal surfaces. Made with high strength materials, it ensures durability and safety in industrial and naval environments. Designed to be compatible with the Jex-24 model, this support allows a stable needle fixation (not included), optimizing performance in the preparation and cleaning of surfaces.

**COD EUROSUL:** 003851

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Benefits:

- Robust construction for high durability in severe conditions
- Total compatibility with the Jex-24 pneumatic discrediting
- Safe fixation of needles for an efficient operation
- Ideal for applications in the naval and offshore industry

### Technical Specifications:

- Material: High Resistance Steel
- Compatibility: Pneumatic Disintegrator Jex-24
- Weight: Approximately 500g (variable as manufacturer)
- Dimensions: Standard for Jex-24
- Applicability: Support for needle fixation (not included)
