

Firefighting Hose Kit 2½” with 15m Hose, Storz Coupling and Nozzle

The Eurosul 2½" Firefighting Kit includes a 15-meter fire hose with Storz coupling, an adjustable nozzle, and a storage box. Designed for naval, industrial, and offshore environments, it ensures quick and efficient response to fire outbreaks on ships, ports, and platforms. The hose is manufactured from high-tenacity polyester with an EPDM or PU inner lining, meeting GB 6246-2011 and SOLAS II-2/10 standards, with CCS certification included.

COD EUROSUL: 096686

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features:

Hose: 2½” (65 mm) x 15 m, high-tenacity polyester with EPDM or PU inner lining

Coupling: Storz 65A naval standard

Working pressure: 1.3 MPa

Operating temperature: -10 °C to +45 °C

Nozzle: Manual adjustable

Certification: CCS – Certificate No. JS21PTB00213

Standards: GB 6246-2011, SOLAS II-2/10

Applications: Cargo ships, offshore platforms, tugboats, support vessels, industrial facilities, and port areas with fire hazards.

Benefits:

Reliability: CCS-certified hose for marine and offshore applications

Efficiency: Adjustable nozzle for precise and effective fire response

Durability: Resistant to abrasion, oil, and harsh weather conditions

Ready to use: Complete kit with storage, easy to install in firefighting stations

Technical Specifications:

Hose: Inner EPDM or PU, outer polyester

Diameter: 2½" (65 mm)

Length: 15 m

Working pressure: 1.3 MPa

Nozzle: Manual adjustable

Standards: GB 6246-2011, SOLAS II-2/10

Certification: CCS – JS21PTB00213

Manufacturer: Zy Fire Hose Corporation – China
