

Lantern BrightStar 60160 Razor 3AA – Waterproof, Atex, Inmetro and Intrinsically Safe

The BrightStar Razor 60160 Lantern is a compact, light and resistant tool designed to meet the highest safety standards in environments with potentially explosive atmospheres. With Atex, IECEX, Inmetro and UL certifications, it is classified as intrinsically secure for use in class I, II and III - Divisions 1 and 2. Its design in Hi-Vis yellow polymer facilitates visualization in emergency situations. It uses 3 AAA batteries and has high efficiency LED, rubberized rear button and fast fixing clip.

COD EUROSUL: 090428

IMPA: ---

Part Number: 60160

Approvals: ---

Specifications

Features

Material: Impact-resistant engineering polymer

Fixers: Integrated pocket clip and rubberized rear button

Design: Lightweight, compact, and highly visible (Hi-Vis yellow) with reinforced lens and textured body

Dimensions & Weight: Approx. 14.7 cm length – lightweight for PPE carry

Applications

Suitable for industrial environments, offshore platforms, classified areas, confined spaces, and emergency services

Benefits

Readiness: Powered by 3 easily replaceable AAA batteries for quick field maintenance

Durability:

LED with a lifespan of up to 50,000 hours; water- and dust-resistant construction

Safety: Certified as Intrinsically Safe (IS) according to ATEX, INMETRO, and UL standards

With enhanced visibility, proven durability, and full compliance with global safety standards, the **Razor 60160** is ideal for critical operations in challenging environments.

Technical Specifications

Material: High-strength polymer

Power Source: 3 × AAA batteries

Lamp Type: LED

LED Lifespan: Up to 50,000 hours

Safety Ratings:

ATEX Zone 0

UL Class I, II, III – Div. 1 and 2

IECEX & INMETRO

Other Features:

Rubberized rear push-button

Pocket clip

Color: Hi-Vis yellow

Waterproof (protection level per ATEX specification)
