

## Intrinsically Safe Green LED Flashlight IP67 – XPP-5418GX Nightstick

The Nightstick XPP-5418GX portable flashlight is designed for Zone 0 hazardous areas, ensuring safe operation in explosive atmospheres. It is suitable for offshore, industrial, chemical and rescue applications. Built from non-conductive engineering polymer, resistant to chemicals and impacts, it delivers 200 lumens of output with up to 10.5 hours runtime, powered by three AA batteries. Its compact design and textured push-button make it easy to operate, even while wearing gloves.

**Part Number:** XPP-5418XG

**Approvals:**

## Specifications

### Benefits:

**Safety:** certified for Zone 0 explosive atmospheres

**Portability:** lightweight and compact for field use

**Durability:** resistant to impacts, chemicals, dust and water

**Autonomy:** up to 10.5 h runtime

**Usability:** glove-friendly, textured push-button for easy operation

### Technical Specifications:

**Ex Classification:** Intrinsically safe – Zone 0

**Light Output:** 200 lumens

**Runtime:** up to 10.5 h

**Beam Distance:** 143 m

**Peak Beam Intensity:** 5,129 cd

**Protection:** IP67 – dustproof and waterproof

**Drop Resistance:** up to 2 m

**Button:** large, textured, glove-friendly

**Power Source:** 3 AA batteries (not included)
