

LED head lantern Rechargeable BrightStar 200521 – Waterproof and intrinsically safe

The BrightStar 200521 Vision head flashlight is a robust, versatile and safe equipment designed to meet the requirements of industrial and maritime environments. With USB recharge and six modes of operation - including high, medium, low and flood modes - ensures ideal lighting for different types of work, even in areas classified at risk of explosion (Class I, II and III, division 2).

COD EUROSUL: 090852

IMPA: 330620

Part Number: 200521

Approvals: ---

Specifications

Features

Material: Light and resistant polymer housing

Fixers: Adjustable elastic strap, compatible with helmets and visors

Design: Low-profile, with tilting mount and large push-button switch

Dimensions: 6.9 cm × 4.4 cm × 4.4 cm

Applications

Suitable for naval operations, offshore platforms, industrial maintenance, and inspections in confined or high-risk areas.

Benefits

Readiness: USB rechargeable with charging time of only 2.5 hours

Durability: Water-resistant design (IPX4) with robust polymer construction

Safety: IS certification for use in potentially explosive atmospheres (UL/CSA), ensuring compliance with international safety standards

Technical Specifications

Material: Light and durable polymer

Fixers: Adjustable elastic strap

Dimensions: 6.9 cm × 4.4 cm × 4.4 cm
