

## Liferaft Distress Kit

The Liferaft Distress Kit is a complete SOLAS/MED-approved emergency signaling set designed for liferafts, lifeboats, and commercial vessels. It includes all mandatory distress signals for maritime safety: red hand flares, red parachute rockets, and orange buoyant smoke signals. All included signals are manufactured by Wescom/Comet, a global leader in marine pyrotechnics, ensuring maximum reliability, high-performance visibility and full compliance with international maritime regulations. The kit is supplied in a rigid container designed for safe storage onboard.

**COD EUROSUL:** 092551

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Features:

**Application:** liferafts, lifeboats, commercial vessels, rescue operations

**Certifications:** SOLAS 74/88, IMO MSC.48(66) & MSC.81(70), MED 2014/90/EU, USCG Type Approval

**Composition:** long-range, medium-range and short-range visual distress signals

**Storage:** rugged container suitable for marine environments

### Benefits:

**Safety:** high-intensity daytime and nighttime distress signaling

**Reliability:** internationally certified products for maritime emergencies

**Efficiency:** provides complete signaling capability for all conditions

**Complete Solution:** meets SOLAS liferaft equipment requirements

### Technical Specifications (Kit Contents):

Included Item	Quantity	Technical Description
---------------	----------	-----------------------

<b>Red Hand Flare</b>	6 units	60-second burn / 15,000 cd / pull-wire ignition / SOLAS & MED
<b>Red Parachute Rocket</b>	4 units	300 m height / 30,000 cd / 40-second burn / SOLAS & MED / USCG
<b>Orange Buoyant Smoke 3 min</b>	2 units	3-minute smoke / daytime use / floating canister / SOLAS & MED
