

M8 Centurion Smoke Detector Tester Aerosol Spray – 76ml (2.6oz) Can

Smoke Centurion M8 is a functional aerosol for smoke detectors testing, offering rapid, practical and efficient verification. It can be used manually or with compatible dispensers. Its formula without silicone reduces the risk of sensor contamination, ensuring longer detecting life and accuracy. It offers more tin tests, rapid activation and low cost per test. Ecological product, CFCs free, with low GWP propellant (global warming potential) and UL/ULC certificate, ensuring compliance with international standards. IMPORTANT: Product provided only with the can Spray. Head testing not included.
