

Boatswain's Chair for Ship Painting

The Painter's Marine Bench is an essential piece of equipment for maintenance and painting tasks on vessels. Manufactured from high-strength plastic, this bench is designed to provide durability and comfort during use. Equipped with a handle for easy transport and a non-slip surface, it offers additional safety and wear resistance, ensuring long service life even in harsh marine environments.

Specifications

Benefits:

Durability: Manufactured from high-strength plastic, ensuring robustness and long service life.

Comfort and Safety: The non-slip surface prevents slipping, providing greater stability during use.

Portability: The integrated handle allows easy transport, enabling the bench to be moved effortlessly as needed.

Versatile Use: Ideal for painting and maintenance activities on vessels, offering stable and secure support.

Applications:

Vessel Maintenance: Perfect for use during painting and maintenance tasks on ships, yachts, and other vessels.

Marine Environments: Suitable for use in ports, marinas, and other facilities where wear resistance and durability are essential.

The Painter's Marine Bench is a reliable choice for sailors and maintenance professionals who require robust and safe equipment to perform painting and maintenance tasks onboard.

Technical Specifications:

Material: High-strength plastic

Surface: Non-slip

Accessories: Transport handle
