

Ritchie Explorer B-51 Compass – Bracket Mount with Lighting

The Ritchie Explorer B-51 Compass is designed for small to mid-sized boats, providing accurate and dependable navigation. Its bracket mount design allows flexible installation angles for optimal visibility on the helm or deck. It features a 2 3/4" (70 mm) direct-reading dial with 12V internal lighting for night operation. Built-in compensators ensure magnetic deviation correction, and the removable, adjustable capsule allows easy maintenance. Constructed from corrosion-resistant materials, the B-51 is 100% repairable and ideal for coastal and offshore use.
