

Firefighter Helmet PAB FIRE 05 – Red – SOLAS/MED & EN443 Certified

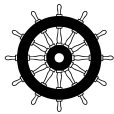

Pab Fire 05 Firefighter Helmet is a high performance PPE to combat structural, sea and industrial fires. Made in Croatia by PAB, the model features modern design, high thermal and mechanical resistance, as well as meeting the most rigorous certification standards: EN443: 2008, EN14458: 2004, EN166: 2004 and solas/med.

COD EUROSUL: 090537

IMPA: ---

Part Number: PAB FIRE 05

Approvals:

SOLAS

Specifications

Material: Reinforced thermoplastic with fiberglass

Design: B3b-type structure with articulated visor, reflective elements, and red finish

Certifications: EN443:2008, EN14458:2004, EN166:2004, SOLAS/MED

Electrical Insulation: Classes E2 and E3

Integrated Protections: Optional neck guard, facial visor, internal impact absorber

Chinstrap: 3-point system with flame-retardant aramid webbing (hypoallergenic)

Customization: Various neck guard options (Nomex, wool, leather, or aluminized)

Applications:

Structural and urban firefighting

Naval, offshore, and port operations

Emergency interventions with thermal and impact hazards

Benefits:

Safety: Full head protection with thermal resistance up to 1,000°C for 10 seconds

Durability: High resistance to impacts, radiant heat, and extreme weather conditions

Visibility: Reflective elements for operation in low-light environments

Comfort: Lightweight with integrated adjustment system for sizes between 52 and 66 cm

European Quality: Manufactured in Europe with advanced technology

Technical Specifications:

Material: Flame-retardant composite with high thermal resistance

Weight: 1,445g ±30g (without accessories) / 1,515g ±30g (with aluminized neck guard)

Visor: Integrated, articulated, anti-scratch, and anti-fog

Sizes: One size fits all (adjustable for head circumferences from 52 to 66 cm)

Certifications: EN443:2008, EN14458:2004, EN166:2004, SOLAS/MED

Origin: Manufactured in Croatia – Brand: PAB
