

## Echo Sounder Recording Paper 156mm x 15m for Simrad ED-161 Chart

Special thermal recording paper for use with the Simrad ED-161 Chart echo sounder. Made from heat-sensitive material, it delivers sharp and reliable printouts without the need for ink. Ideal for marine applications where precise depth tracking and environmental durability are essential.

**COD EUROSUL:** 003522

**IMPA:** 372629

**Part Number:** TP-6 (T-6)

**Approvals:** ---

## Specifications

### Features

**Type:** Thermal paper for echo sounder

**Compatibility:** Simrad ED-161 Chart

**Application:** Depth recording

**Material:** High-resolution thermal-sensitive paper

**Dimensions:** 156 mm (width) x 15 m (length)

### Applications

Vessels equipped with navigation and echo sounder systems

Commercial and sport fishing

Depth monitoring in challenging marine environments

### Benefits

**High-definition printing:** Clear output without ink

**Durability:** Suitable for harsh marine environments

**Accuracy:** Faithful reproduction of equipment data

**Compatibility:** Tailor-made for Simrad ED-161 model

## Package Contents

01 Roll of TP-6 thermal paper (156 mm x 15 m)
