

Echo Sounder Recording Paper Roll 100mm x 10m

Thermal paper roll designed for graphic recording in echo sounders, made from high-resolution heat-sensitive material. Provides clean and durable prints without requiring ink.

Compatible with a wide range of marine echo sounder devices that support 100 mm rolls.

COD EUROSUL: 000145

IMPA: 372619

Part Number: ---

Approvals: ---

Specifications

Features

Type: Thermal echo sounder paper

Format: Roll

Dimensions: 100 mm (width) x 10 m (length)

Core: Black plastic (standard)

Compatibility: Marine echo sounder systems using 100 mm rolls

Applications

Continuous depth recording in navigation equipment

Sonar-based marine operations on vessels

Benefits

Clarity: High-resolution, sharp printouts

Efficiency: Ink-free thermal technology

Practicality: Easy installation and replacement

Suitability: Designed for short and medium-term operational logging

Package Includes

01 thermal paper roll unit (100 mm x 10 m)
