

## Paper Diagram for Barograph 92 x 302 x 12mm NS311

Paper Specific Diagram for Drum Analog Barographs. The NS311 model is ideal for continuous atmospheric pressure record in maritime and terrestrial weather stations. With hours and weekly scales, it offers accuracy and reliability in climate monitoring.

**COD EUROSUL:** 003020

**IMPA:** ---

**Part Number:** NS311

**Approvals:** ---

## Specifications

### Features

**Material:** Special paper sensitive to recording pen

**Mounting:** Not applicable

**Design:** Circular chart with hour and day markings

**Dimensions:** 92 mm (height) x 302 mm (length) x 12 mm (core diameter)

### Applications

Analog barographs with drum

Marine and land-based meteorological stations

Continuous monitoring of atmospheric pressure on vessels

### Benefits

readiness: compatible with major models of drum barographs

durability: resistant recording surface suitable for several days of measurement

safety: provides accurate and continuous records, essential for safety and meteorological analysis

essential product for professionals requiring reliable meteorological data in marine environments

### Technical Specifications

**Material:** Barograph chart paper

**Mounting:** Not applicable

**Dimensions:** 92 x 302 x 12 mm
