

## Needle for Pneumatic Needle Scaler

**The 4mm x 180mm Needle for Pneumatic Scaler** is designed for use in tools for removing scale, rust, and metallic residues. Manufactured from durable material, it provides high durability and efficiency in industrial and marine operations.

**COD EUROSUL:** 090070

**IMPA:** ---

**Part Number:** ---

**Approvals:** ---

## Specifications

### Specifications:

**Diameter:** 4mm

**Length:** 180mm

**Packaging:** Box with 50 pieces

**Application:** Pneumatic needle scalers JEX-28 and similar models

### Benefits:

**Durability:** High wear resistance, ensuring long service life

**Compatibility:** Compatible with various models of pneumatic needle scalers

**Efficiency:** Effective for removing rust, paint, and metallic scale

### Applications:

**Naval and offshore industry**

**Maintenance of metal structures**

**Mechanical and industrial workshops**
