

## Portable GMDSS/VHF Radio R5 McMurdo with Charger and Rechargeable Emergency Battery

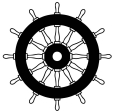

The R5 McMurdo Portable GMDSS/VHF Radio is a reliable safety solution for survival craft, meeting IMO, GMDSS, and ETSI standards. Fully waterproof (submersible up to 0.5m for 30min) and drop-tested, it ensures effective communication in harsh maritime conditions. Large buttons allow easy operation with gloves, and its ergonomic design provides a secure grip. The R5 Pack A model includes an emergency lithium battery, belt clip, safety lanyard, user manual, and charging kit.

**COD EUROSUL:** 005354

**IMPA:** ---

**Part Number:** 20-001-01A

**Approvals:**

**SOLAS**

## Specifications

**Features:**

**GMDSS Channels:** 23 channels

**Certification:** MED (Wheelmark) and FCC approved
