

Accommodation Ladder certified SOLAS/CCS

The ACCOMMODATION LADDER, is ideal for departure and disembarking operations on coastal vessels to pier or floating structures. Made of high strength aluminum, it combines lightness, durability and easy installation, meeting the requirements of the Solas Convention. This equipment is certified by the China Classification Society (CCS), ensuring compliance with international maritime safety standards. It can be manufactured on order in various lengths, adapting to different vessel types and onboard settings.

Specifications

Applications

Vessels moored at docks, ports, or floating platforms
Safe transfer operations for crew and passengers
Marinas and offshore terminals

Benefits

Readiness: Certified equipment adaptable for various operations

Durability: Marine-grade aluminum with excellent resistance to saltwater corrosion

Safety: Non-slip surface and stable structure ensure secure boarding

With a functional design and high strength, the Gangway Ladder is essential for vessels seeking compliance with SOLAS regulations and CCS certification

Technical Specifications**Material:** High-strength marine-grade aluminum**Fixers:** Fitting system with support handrails**Design:** Modular structure with non-slip surface**Dimensions:** Standard models and other sizes available upon request**Sizes:**

Código Eurosul	Produto	Dimensões	Material
004752	Accommodation Ladder 600mm x 7m SOLAS / Certificado CCS	7 m	Alumínio Naval
004288	Accommodation Ladder 600mm x 9m SOLAS / Certificado CCS	9 m	Alumínio Naval
004380	Accommodation Ladder 600mm x 10m SOLAS / Certificado CCS	10 m	Alumínio Naval
