

## Rechargeable Battery Entel CNB450E-IS for DX585-IS

The Entel CNB450E-IS rechargeable battery is designed for the DX-IS series radios, ensuring high performance and safety for maritime and offshore operations. Certified under UL913, this 2200mAh lithium-ion battery delivers extended operation times without experiencing the memory effect.

**COD EUROSUL:** 090758

**IMPA:** ---

**Part Number:** CNB450E-IS

**Approvals:** ---

## Specifications

**Material:** Lithium-ion

**Fixings:** Spring-loaded belt clip included

**Design:** Lightweight, ergonomic and durable

**Dimensions:** Not specified

### Applications

Compatible with DX585-IS radios from the DX-IS series

Ideal for maritime and offshore environments where advanced safety standards are required

### Benefits

**Readiness:** Fast and efficient charging, ensuring reliable power for extended operations

**Durability:** Long battery life, supporting up to 450 charge cycles while retaining 80% efficiency

**Safety:** UL913 certification, ensuring safe use in hazardous maritime and offshore environments

### Technical Specifications

**Material:** Lithium-ion

**Capacity:** 2200mAh

**Fixings:** Spring-loaded belt clip included
