

## Rechargeable LI-ION Battery for SP3510 and SP3520 VHF GMDSS Radio

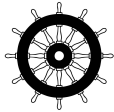

The Sailor S-403502A Rechargeable Battery is a reliable and efficient power solution for Sailor SP3500 series portable radios. Specifically designed for models SP3510, SP3520, and compatible with VHF GMDSS applications, this lithium-ion battery delivers extended life, quick recharge, and superior performance in harsh maritime environments.

**COD EUROSUL:** 005336

**IMPA:** ---

**Part Number:** S-403502A

**Approvals:**

**SOLAS**

## Specifications

### Features

**Material:** High-density Lithium Ions (Li-Ion)

**Compatibility:** Sailor SP3500 portable radios, including SP3510, SP3515, SP3520 and SP3550

**Design:** Compact and lightweight, facilitates handling in challenging maritime conditions

### Applications

Use in maritime emergency communications and regular operations

Compatible with VHF GMDSS systems for compliance with international safety standards

### Benefits

**Readiness:** Ensures immediate availability for maritime emergencies

**Durability:** Robust construction to withstand impacts and adverse maritime conditions

**Safety:** Reliable support for compliance with GMDSS requirements

## Technical Specifications

**Material:** Lithium Ions (Li-Ion)

**Compatibility:** Sailor SP3510, SP3515, SP3520, SP3550 radios
