

Red isolated cable fires – Germany Type model

The Germany Type Firefighting Hatchet is an essential tool for firefighting, rescue, and emergency operations in marine and offshore environments. It features an insulated rubber-coated handle that provides electrical protection up to 6000V, ensuring user safety in electrically hazardous areas. The high-resistance steel blade is designed for precise cuts and structural breaching in critical situations.

COD EUROSUL: 000130

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Features

Blade Material: High-resistance steel

Handle: Insulated rubber, electrical protection up to 6000V

Design: Germany Type, ergonomic and robust

Color: Red (blade) and black (handle)

Applications

Firefighting: vessels and offshore platforms

Rescue: forced entry operations

Emergencies: marine and industrial

Benefits

Readiness: essential tool, easy to carry and quick to use

Durability: robust construction for heavy-duty use in severe conditions

Safety: insulated handle up to 6000V reduces electrical hazards

Versatility: suitable for multiple critical operations

Technical Specifications

Blade: High-resistance steel

Handle: Insulated rubber

Electrical Protection: Up to 6000V

Color: Red (blade) and black (handle)

Application: Rescue, firefighting, and marine emergencies
