

Red Fiberglass Storage Box for Safety Equipment

The Red Fiberglass Storage Box for Safety Equipment is manufactured from reinforced fiberglass, ensuring high resistance against impacts, corrosion, and weathering. Designed to securely store fire extinguishers, protecting them from external elements and extending their service life. Its robust design and red finish allow easy identification in emergency situations.

COD EUROSUL: 095077

IMPA: ---

Part Number: ---

Approvals: ---

Specifications

Benefits:

High resistance: to impacts, corrosion, and adverse weather conditions

Efficient protection: for fire extinguishers, preventing damage and extending their service life

Easy installation: and quick access in emergency situations

Versatility: ideal for marine, industrial, and commercial use

Applications:

Ships, vessels, and offshore platforms

Industries, ports, and maritime terminals

Commercial and storage areas

Specifications:

Material: Reinforced fiberglass

Dimensions: 75cm x 30cm x 25cm

Color: Red for easy identification

Application: Safe storage of fire extinguishers
