

SOLAS Reflective Tape ORALITE FD1403 – 50mm x 45.72m

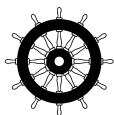

The FD1403 oral reflective tape is a high - performance retro -arrangement material, produced in the United States by Orafol Americas Inc., specially developed for use in maritime salting equipment such as vests, buoys and inflatable ferries. Composed of metallic acrylic film microprishes and pressure -sensitive acrylic adhesive, it is highly resistant to solvents and severe conditions. It has solas/USCG/Med certification and meets IMO Res. A.658 (16), Directive 2014/90/l and other international maritime security requirements.

COD EUROSUL: 000390

IMPA: ---

Part Number: ---

Approvals:

**SOLAS**

Specifications

Features

Material: Metallized acrylic with encapsulated microprisms

Reflectivity: Type II – High performance even in humid environments

Adhesive: Pressure sensitive acrylic, high resistance

Certifications: SOLAS, MED 2014/90/EU, USCG, IMO A.658(16)

Marking: “SOLAS” with numerical code, ORALITE registered trademark

Applications

Lifesaving equipment: life jackets, buoys and life rafts

Emergency signaling and maritime safety
Offshore environments and commercial vessels
Use in compliance with international regulations

Benefits

Superior Visibility: Type II reflectivity for maximum night visibility

Regulatory Compliance: Meets all international maritime safety standards

Durability: Resistant to salt water, UV and severe marine conditions

Technical Specifications

Material: Metallized acrylic film with encapsulated microprisms

Width: 50mm

Length: 45.72 meters

Color: Silver

Reflectivity: Type II (continuous outdoor use)

Adhesive: Acrylic PSA (Pressure Sensitive Adhesive)

Certificates:

Bureau Veritas (Module B – MED 2014/90/EU)

USCG Approval No. 164.018/4/0 (valid until 09/14/2025)

IMO A.658(16), MSC.48(66), MSC.97(73), MSC/Circ.980

IMPA Code: 330189
