

## Registration paper for Ecosanda 150mm x 10m

Roll registration paper for ecosanda equipment, 150mm wide and 10 meters long. Ideal for graphic depth data printing, bottom profile and submarine acoustic signals. Product suitable for naval polls, technical inspections and hydrological measurements.

**COD EUROSUL:** 003454

**IMPA:** 372622

**Part Number:** ---

**Approvals:** ---

## Specifications

### Features

**Material:** Special echo sounder paper, compatible with thermal or electrographic printers (depending on equipment)

**Mounting:** Not applicable

**Design:** Continuous roll with standard inner core

**Dimensions:** 150 mm wide x 10 m long

### Applications

Echo sounder equipment on commercial or technical vessels

Printing of acoustic depth data and underwater structures

Graphic records for navigation, fishing, hydrographic and oceanographic surveys

### Benefits

readiness: supplied in roll format, ready to use

durability: high-quality paper resistant to marine environments

safety: stable and clear prints ensuring accurate analysis of recorded data

essential product for technical onboard operations with reliability and precision

### Technical Specifications

**Material:** Echo sounder paper

**Mounting:** Not applicable

**Dimensions:**

150 mm x 10 m
