

Release Hook for Rescue Boat/Raft – PX-01 (15kN)

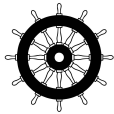

The PX-01 Release Hook is designed for safe and efficient hoisting and launching of inflatable rafts and rescue boats, in compliance with stringent SOLAS, MSC.81(70), and LSA Code standards. With a load capacity of 15kN, it is ideal for smaller vessels, supporting davit loads up to 1,500 kg and enabling reliable operations in both automatic and manual modes.

COD EUROSUL: 004963

IMPA: ---

Part Number: PX-01

Approvals:

SOLAS

Specifications

Features

Capacity: 15 kN.

Standards: SOLAS, MSC.81(70), LSA Code.

Operation: automatic/manual lever for safe release.

Benefits

Safety: prevents accidents during emergencies.

Reliability: stable under all marine conditions.

Ease of use: fast and simple handling.

Applications

Suitable for liferafts and rescue boats on ships and offshore units.

Technical Specifications

Material: corrosion-resistant stainless steel.

Capacity: 15 kN.

Weight: 3 kg.

Dimensions: 30 × 10 × 5 cm.

Certification: SOLAS, MSC.81(70), LSA Code.
